

P600X is Android OS data Collector featuring the latest industrial-grade processor from Qualcomm. With its slim form factor and standard alphanumeric keypad, this device is perfect for complex mobile office scenarios. Additionally, the 5.5-inch 1080P display, made with Gorilla Glass, enhances durability and ensures excellent readability in sunlight, making it ideal for outdoor data collection.

## Characteristic

### Powerful System

The P600X is equipped with the Qualcomm SM6115 processor, designed with an 11 nm fabrication process, providing powerful performance for smooth CAD drawing management and base map display, greatly enhancing productivity.

### Display Excellence

The 5.5-inch 1080P resolution industrial display with 500 nits brightness covered by robust Gorilla Glass enhances outdoor data collection visibility even in sunlight.

### Standard full alphanumeric keyboard

The alphanumeric keyboard design has been optimized for fast data input without altering user habits. Multiple shortcut buttons have been thoughtfully included without increasing the device's size, helping you quickly complete various operations in industry applications. The large-capacity battery ensures uninterrupted data collection.

### Various Data Communication Methods

P600X provides various connectivity options, including Bluetooth 5.0, dual-band 2.4G and 5G Wi-Fi, and a 4G modem supporting global networks, ensuring seamless and reliable connectivity with your preferred GNSS receivers and RTK network correction sources. The built-in 9000mAh battery provides long-lasting performance.

### Robust Device Protection

Designed for extreme durability, it can withstand drops from heights of up to 1.2 meters and complies with stringent IP67 standards. P600X excels in challenging environments, making data collection tasks easier and more efficient.

## Specifications

		SPECIFICATION ITEM
SYSTEM	OS	Android 12
	CPU	Qualcomm SM6115 Kryo Gold: quad high-performance cores 2.0 GHz Kryo Silver: quad low-power cores 1.8 GHz
